MUSIC

Piano as Catch Can
Enjoy impromptu piano music on the baby grand in the main entrance lobby and the surgical waiting area by Starbucks provided by our pianists when they have a moment. These musicians are a blend of employees, patients, visitors and community members who have auditioned and been welcomed to our team. Contact Claire de Boer cdeboer@hmc.psu.edu for more info.

ART

Rotating Art Displays
See original paintings by regional artists Susan Darling, Stephen Koons, Keeley McCue, Sharon Woelfling and Dianne Zinn on display in the following patient and family waiting areas: Nuclear Medicine wait area in Radiology, 6th floor family waiting areas H6101 and H6102, HVI patient area and family waiting area. All work is for sale.

Pick-a-Pic
Our art-lending program in designated in-patient rooms is blossoming. Thirty-nine rooms have specially made frames that accommodate changing art. Patients choose a painting from our growing collection of prints by regional professional artists. The Pick a Pic program is funded by nursing departments and by the Association of Faculty and Friends. For more information, contact CenterStage@hmc.psu.edu

Artistic Enhancement
Betsy coordinates with local staff to artistically re-create patient waiting areas in need. See her creating a mural in the 7th floor rotunda this month!
